## How To Use This Guide

From the Table of Contents, identify the vehicle model and scroll to the appropriate page. Each illustration will call out DuPont or CDI/Sikkens paint codes for the main body color and any accent colors in the graphics and/or valance panels. You can select the proper code by the accompanying color description.

Valance panel colors may also be labeled with a 3-digit exterior paint option number (Examples: 27G, 92K). If unsure of a valance color because the color descriptions are similar, you can confirm the correct exterior paint option number from the vehicle's equipment list. If this list is not available to you in the coach, you can access the correct information by serial number in the WinNet Warranty Menu under Vehicle Information/ Vehicle Options.

Any paint code beginning with 'CDI' indicates CDI/Sikkens paint. For information or repair approval specific to CDI paint, excluding transportation damage, contact them directly at 641-585-5900.

Paint code information is also provided on the Motor Home Component Information Sheet found in the motor home InfoCase.

Winnebago Industries dealerships can access paint information for a specific motor home in the Warranty Menu in WinNet. Using the coach serial number, go to Vehicle Information/Appliance Model/Serial. This will indicate Dupont or CDI/Sikkens and give the corresponding paint code.

## IMPULSE
