

Wi-Fi Connectivity

Two levels of internet connectivity to make your RV feel more like home.

10G or 100G

Choose from two plans to turn your RV into a mobile hotspot.

**Preparation & Operation**

Easy to use, searchable, features on the Winnebago Connect app.

Onboarding

Comprehensive overview of the whole RV and the Winnebago Connect system.

**Operating Checklists**

Includes topics such as preparing for a trip, arriving at a campsite, departing from a campsite, winterizing your vehicle, etc.

**How to Videos**

Instructional videos shows you how to operate individual RV systems (e.g., how to set up slideouts, how to manage water tanks, etc.)

**Operating Manuals**

Complete operating manuals for RV and key components (e.g., appliances).

**Smart Energy Management**

Automatically controls systems for the ideal RV experience as efficiently as possible, and informs you how long your vital resources will last based on your actual use.

Smart Climate

Our intelligent system considers interior and exterior conditions and the equipment onboard to keep your environment comfortable, while using less power.

**Battery Max**

Efficient battery charging: Winnebago Connect considers multiple factors to determine the best way to deliver battery considering tradeoffs between speed of charge, source of energy (i.e., generator vs. alternator) to maximize battery life.

**Automatic Battery Recharge**

Ensures your battery will be fully charged when you need it while protecting the health and longevity of your battery.

**Systems Protect**

Tracks total energy consumption and intelligently shuts down select components (e.g., hair dryer, coffee maker, A/C) before overloading key systems to protect from damaging key RV electrical components.

**Power Extend**

Automatically turns off power to energy draining systems when they are not in use to preserve boondocking time. (i.e., system will turn off energy to tank pad heaters unless the temperature drops below 40 degrees).

Monitoring & Control

Keeps you informed and in control for more peace of mind.

Pet Minder

Monitors RV temperature and be notified on the app if it falls outside of the range you define, or if your RV loses power.

Near*

Near + Far**

Near + Far

Monitor Assist

Provides over 100 alerts via push notifications to keep you informed real-time. (i.e., You are almost out of water, refill; Your battery is about to die, plug into shore power or turn on your generator; Your refrigerator / freezer internal temp / out of range; Your outside temperature getting close to freezing, make sure the heater is on to protect water lines; Your black water tank is about to overflow; Monitor how much power you are bringing in through solar or the alternator or shore power).

Near

Near + Far

Near + Far

In Control

Allows you to control major RV systems in the palm of your hand with the Winnebago Connect app. (e.g., Cabin door lock / unlock; HVAC; Water Systems (Turn on/off water pump or water heater, set desired water temp); Energy Systems (Get notified that you've lost shore power and turn on your generator, turn on/off your inverter); and Awnings (Retract near & far field and extend near field.)

Safety & Security

Awning protect

Automatically retracts awning in windy weather.

Service Safety

Locks out remote command & control from the mobile app, helping protect individuals working on the RV.

Weather Updates

Provides local 5 day forecasts and receive bad weather alerts (e.g., wind, hurricane, high waves, blizzard, air quality, etc.).

RV Ongoing Optimization & Service

Real-time Updates

System automatically updates software and systems to optimize and even enhance performance over time.

Remote Diagnostics

Winnebago Customer Care team can remotely review status of vehicle and help determine the best approach to addressing any issues.

Remote Service

Some issues can be solved through software updates wherever you are.

*Pair your RV to your phone via Bluetooth® while you're close to your vehicle.

**Use the Winnebago App to access your vehicle from anywhere you have cell phone coverage.
